

Call for Papers

AHP/ANP and Cross
Fertilizations with other
MCDA Methodologies

For this special issue we invite original research contributions to the theory, computation, and practice of Analytic Hierarchy/Network Process (AHP/ANP) and Cross Fertilization with other Multicriteria Decision Analysis (MCDA) Methodologies. We welcome high quality papers that address any type of decision problem, may propose methods and algorithms for solving them and may describe important applications of AHP/ANP by itself or with other MCDA methodologies in practice. Applications implemented, affected managerial decisions are highly sought after. The deadline for submissions is June 30, 2023. Also, this special issue is connected but not restricted to the International Symposium on the Analytic Hierarchy Process (ISAHP) conference. The participants of the 17th ISAHP are invited to submit their papers. Contributions arising from papers given at a conference should be substantially extended and should cite the conference paper where appropriate. Furthermore, all researchers worldwide working on the topics indicated above are also invited to contribute. **Instructions for authors can be found at:**

<https://onlinelibrary.wiley.com/page/journal/10991360/homepage/ForAuthors.html>

Authors should submit their high-quality manuscript via Wiley's web-based system, by June 30, 2023, indicating that the submission is for a special issue. Manuscripts submitted after the deadline may not be considered for the special issue and may be transferred to a regular issue. Submitted manuscripts should not have been published previously, nor be under consideration for publication elsewhere. The submitted manuscripts will be sent to reviewers as they arrive but the editors will have the last word in accepting or rejecting any manuscript that does not present a high level of scholarship. Accepted papers will be published online individually, as they become ready, before the special issue publication.

Tentative time scale:

- Submission deadline: 30 June 2023
- Final decision: 31 November 2023.

Further inquiries should be sent to the Guest Editors:

- Birsen Karpak, Youngstown State University, USA, bkarpak@ysu.edu
- Enrique Mu, Carlow University, USA, emu@carlow.edu
